Installing the Citrix Plug-in on a MAC

1. To get the Macintosh Web Plug-in go to: www.citrix.com

2. On the Citrix home page, click on Downloads.

3. Click on Learn More under Citrix Clients.

5. Under General Documentation, you will see two downloads. Make sure to download **Citrix Online Plug-in for Mac – Web**. Click on the download link to the right.
6. After clicking on the Download link, you will be prompted by the Download Manager to download the file.

   ![Download Manager]

   **About the Download Manager**

   The Download Manager provides for more effective, more efficient file downloads than you normally see with your browser, especially for large files or file sets. It can pause and restart downloads even if you turn your computer off and on again. You will be presented with a security warning and after you accept, the Download Manager will install and begin to download the requested file.

   [Click to download your file now.](#)

   Should the Download Manager fail to start, or if you do not accept the security certificate, you can [click here](#) to download the file without using the download manager.

---

7. Click on the link to download the file to your computer. You will be prompted to allow an applet to run on your computer. Click on **Allow**.

   ![Applet request]

   **An applet from “dlm.tools.akamai.com” is requesting access to your computer.**

   The digital signature from “Akamai Technologies, Inc.” has been verified.

   ![Applet options]

   - [ ] Allow all applets from “dlm.tools.akamai.com” with this signature
   - Show Details…
   - Deny
   - Allow

---

8. You will then be asked to save the file to your computer. Click on **Save**.
9. After you have downloaded the file, click on the **Launch button** to start the installation process.

10. Click on **Install Citrix Online Plug-in.pkg**.
11. Click on Continue to start the installation.

12. Click on Continue.
13. Click on **Agree** to accept the software license agreement.

14. Click on **Install** to install the plug-in.

15. The Plug-in is installed on to your Mac.
16. Click on Close.
